

Dear Families,

Our Beginning of the Year Study was quite a success. We got the opportunity to review and refresh everything there is to know about our rules and routines. It is now time to move on to our next study, Buildings, which will also combine topics from our Roads and Signs studies. We will begin our new study on November 23, 2020. When we are outside, we notice a lot of different types of buildings. We have been pointing out different things that we see on the buildings like the doors, windows and if they are tall or short. For our remote friends, we have been going on virtual tours of their households and discussing characteristics, we see, such as the number of doors or windows they have in their house. This is beginning to spark the children's curiosity about what they are seeing both at home and in school.

To extend our study at home, talk with your child about the buildings that you see around your neighborhood. Keep a list of the ones that interest your child. Help your child investigate questions, such as how many floors, rooms or windows does it have? We are looking forward to another exciting and enriching study!

Thank you,

Ms. Heather and Ms. Michele - Class 2
